

Pamlico Christian Academy

We're FALLing for Jesus

What we say and do matters! Here at PCA we have been working hard at academics along with building character in our students.

LOVE for JESUS

Thank you to all of our past, present, and future Chapel Guests

We are so thankful for Dr. Ross and his message. God has a plan for your life so enjoy the journey and continue to love learning. Even when we go through difficult times, trust God.

LOVE achievement

Hard work and dedication will get you everywhere! PCA Senior, Jason Caccavaro has been accepted to Virginia Wesleyan University and will be playing on their baseball team!

LOVE for each other

Our Kick Off for Anti-Bullying month! Our theme is "Scatter Seeds of Kindness Everywhere You Go: Scatter Bits of Courtesy and Watch Them Grow and Grow!"

Bullying can affect everyone--those who are bullied, those who bully, and those who witness bullying. We are encouraging our students to lift each other up, lend a helping hand, be kind and understanding, speak up for others, and above all...Love Like Jesus.

We are learning about our words and how they affect us and others. The Bible teaches us that our tongue is like fire. Even a tiny spark can set a great forest on fire. It is such a small body part, but the hardest to tame! Choose to speak LIFE!

We used our most unhappy crayons to color our first person. We wrote unkind words and actions that might tear someone down. This was a very unhappy person.....So, we created a new person and used our happiest crayons to fill them with words and actions that were encouraging and uplifting. We are called to LOVE like Jesus and be the light in the darkness!

LOVE friendship

Our Big Buddy, Little Buddy concept is flourishing. The "bigs" learn what it means to be an example to others and the "littles" have someone to look up to in a higher grade. We've had many activities for our Buddies to spend time together such as chapel, twin day for spirit week, and most recently our Big Buddy, Little Buddy Picnic for lunch. It's a perfect way to build friendships.

LOVE Education

Thank you to all of our guests who visited our upper and lower campuses - New Bern Fire & Rescue Clown Troupe and Grantsboro Fire Department. It was a fun way to learn about fire safety. Cheryl Brooks from the Daughters of the American Revolution visited us for Constitution Week. We learned about Richard Dobbs Spaight from New Bern. PCA Junior and Seniors visited NC State University to get an on-site experience of what a university campus is like. Our 4th, 5th, and 6th graders have been brushing up on their keyboard skills in technology class. Our 9th and 10th grades are learning about physical and chemical changes in science while our 7th and 8th grade are learning about rocks and minerals. They did a good job of following safety rules! Headbands for the win!

LOVE Creativity

Join us for our 1st presentation of Historical Figure "WAX MUSEUM"! This is a community event at our upper school campus, PCC - Delamar Center. 6-8pm floating. Our students will be dressed as a historical figure while presenting their research on this person. Come on out and check out the creativity of our students while gaining a little refresh on some of our country's most influential people!
